“As animal owners ourselves we are continually humbled at the role and contribution the veterinary community make.”

Welcome to the Snazan International 2023—24 Catalogue

We have now been established for just over one year in the veterinary market, time has flown by. Alongside our first year of trading there have also been several key product developments (some of which you will see in this catalogue).

We have further developed our instrument range and are launching our equine product line (which includes endoscopic devices) alongside our specialist instruments which are manufactured with the same medical grade quality we have afforded all our other instrument lines.

As animal owners ourselves we are continually humbled at the role and contribution the veterinary community make and the importance and sense of wellbeing our own pets bring to our lives.

We are driven by our unrelenting passion for animals first and foremost and satisfying the needs and requirements of the skilled surgeons who care for them. This year we have a number of exciting product development initiatives and some of them we are able to share with you in this catalogue. I know there are a significant number of high-quality providers of surgical products to the veterinary market, so I would like to thank you for picking up our catalogue and considering Damsa Animal Health.

We're experts
in our field

Who are Snazan International?

Whilst we are relatively new to the animal health market in the UK and Europe, we have been providing surgical instruments and medical devices to veterinary surgeons in North America for over 20 years (initially as Spectrum Surgical and from November 2015 as Snazan International).

Our commitment to veterinary care lies in the manufacture of the finest medical grade instruments, devices and complementary consumables. We adhere to the highest manufacturing standards because we know how important the animal in your care is and that if they require surgical intervention they deserve the very best.

Our standards align to ISO 13485, we use this standard in our successful healthcare business. This reinforces our commitment to manufacturing standards for our Customers and team from forging to finishing and prototype to manufacture. We combine these exceptionally high expectations with our comprehensive Damsa 10-point quality check.

We are continually expanding our product range and this year is no exception, we have introduced a

focus on equine, extended our range of companion instruments and are very excited to launch our Endo-i® range of endoscopes for equine and companion animals. Our devices are aligned to FDA manufacturing processes and feature the CE quality mark providing assurances about our equipments performance across Europe.

Over the coming months we will continue to develop and add to our existing ranges using our capabilities and experience in surgical instrument and device manufacture.

Committed to giving back

Commitment to quality products is aligned to our passion for animals. This year we have been ideally placed to support one of the UK's largest equine welfare charities and we continue to support initiatives encouraging veterinary practice as a valid career choice. You can read more about our value added work by requesting this years Corporate and Social Responsibility Strategy.

Ask us for a copy of our CSR and Environmental Strategy or download it from our website.

Why Snazan International?

We know that there are numerous providers on the market so we wanted to create a section of the catalogue to tell the veterinary community why we are different:

- ✓ We provide a range of premium quality instruments at an affordable price
- ✓ We only sell human medical grade instruments (because animals deserve the best too)
- ✓ Our veterinary devices are researched, developed and manufactured from our facilities in the USA and comply to European CE standards
- ✓ We are a small yet dedicated team of passionate animal owners and we focus on getting it right every time
- ✓ We offer free and fast delivery using our reliable shipping partner
minimum order value required
- ✓ We prefer honesty (it's the best pawlicy) and we never forget the power of humour and positivity in what we do
- ✓ We are committed to caring for both our Customers and the animals in their care
- ✓ As the instrument manufacturer we are continually adding new product lines to our range. You can stay updated by logging onto our website or registering for email updates
- ✓ Our R&D is guided by experts in the veterinary field (no pun intended or assumptions vets work in fields) this extends beyond instruments to include veterinary diagnostics (we even have our own veterinary R&D departments in Fort Lauderdale, Florida and Birmingham, Alabama)
- ✓ We are driven and guided by our passion for what we do and a desire to make a difference to the health and wellbeing of animals. This is fundamental to our business ethos and is why we demand the best quality, always.

2017

In December 2017 Everost Orthopaedics was acquired by Snazan International

2017

In November 2017 Snazan International Europe launched with a range of medical grade surgical instruments and consumables

2018

In Autumn 2018 Snazan International Europe introduced a line of equine specific instruments combined with the European launch of the Endo-i[®] second generation of endoscopes available in 1.5m and 3m lengths

Mission & Values

Our mission

Supporting vets to deliver excellent surgical care to all animals, helping to create a healthier and safer world.

We support vets through creating effective diagnostic and medical solutions. We don't believe in standing still, everyday is an opportunity for us to support animals in surgery and equipping veterinarians with the tools they need to deliver the very best care, transposing boundaries to share best practice in animal and human health where we can make a valuable contribution to helping to create a healthier and safer world for animal and human.

Vision

Providing world class products and collaborative service solutions for vets and animals in veterinary care. We are committed to providing only the very best quality products, substandard does not feature in our vocabulary. Our devotion to animals extends beyond the boundaries of business in our relentless pursuit for improving the health of all animals large and small — this is a minimum standard we each individually work towards every day. We know, it sounds like a lot of hard work... but we believe in delivering only the very best.

The best for animals

Values

Animals are our world

First and foremost our passion is for the care and wellbeing of animals.

Customers are at the forefront of our minds

We create our products and define our business processes with the Customer firmly in our minds.

Improvement is integral to the decisions we make

We stand beside veterinarians in developing innovative solutions to common or complex problems.

Teamwork is our sentiment

Our teams provide the foundation for our work, we are bold and committed to our shared vision.

Passion is our beating heart

We live and breathe animals and their care, it's not just a job to us, it's a way of life.

Integrity is our commitment to you

We care about pets, people and the environment, we create products and services that support this sentiment.

Our surgical Instrument range

We offer both a companion and an equine surgical instrument range. Both ranges, offer Customers the opportunity to buy single instruments or for specific operative procedures we also offer a range of surgical kits.

We pride ourselves on providing world class products and service solutions to our Customers. We understand that to many of our Customers, animals are just as important as humans and the veterinary care provided must reflect this. Every professional needs the right tools to ensure they can complete their work to the best possible outcome.

At Damsa Instrument Management Services we craft our surgical instruments to the finest human medical grade and adhere to stringent manufacturing standards.

Just like our medical instruments we follow the same manufacturing regulations including:

BSEN7153-1

Specification for materials used in surgical instruments (only the finest medical grade stainless steel)

BSEN5194-2

Specification for pivoted surgical instruments

BSEN194-3

Specification for dissecting forceps

BSEN194

Specification for pivoted cutting

Through our human health accreditation to ISO 13485:20 and our Damsa 10-point quality check, we offer our Customers peace of mind and reassurance that we will never compromise on quality but continuously work towards even greater improvements.

We offer delivery on all items in the UK

Minimum order value applies

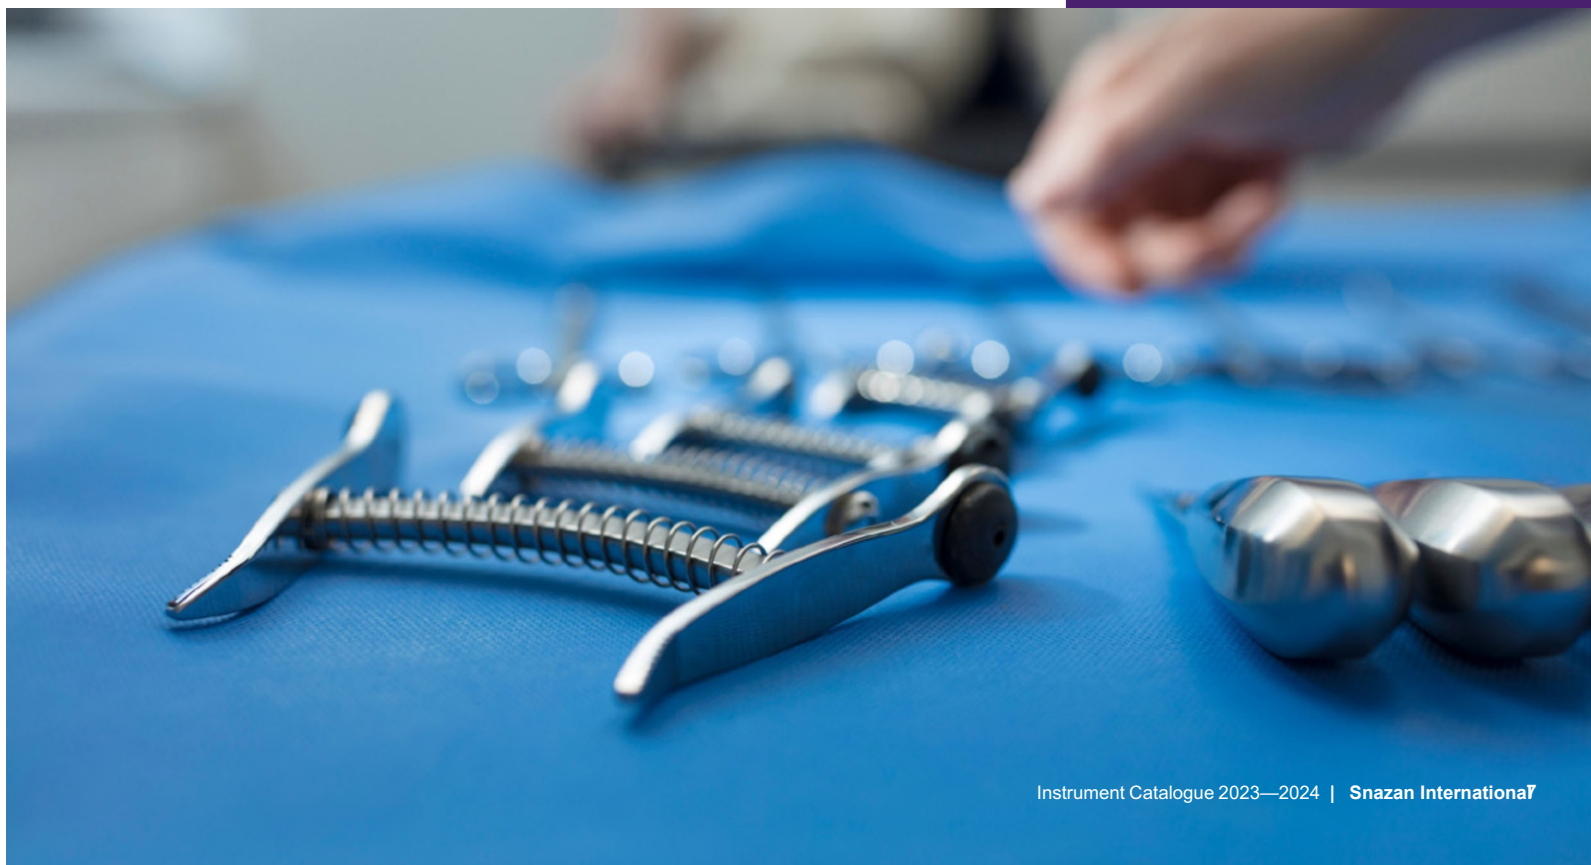

All our instruments carry a 10-year manufacturers guarantee

Our guarantee covers workmanship, damage sustained through accidental damage or mishandling or use is not covered under the terms of our guarantee

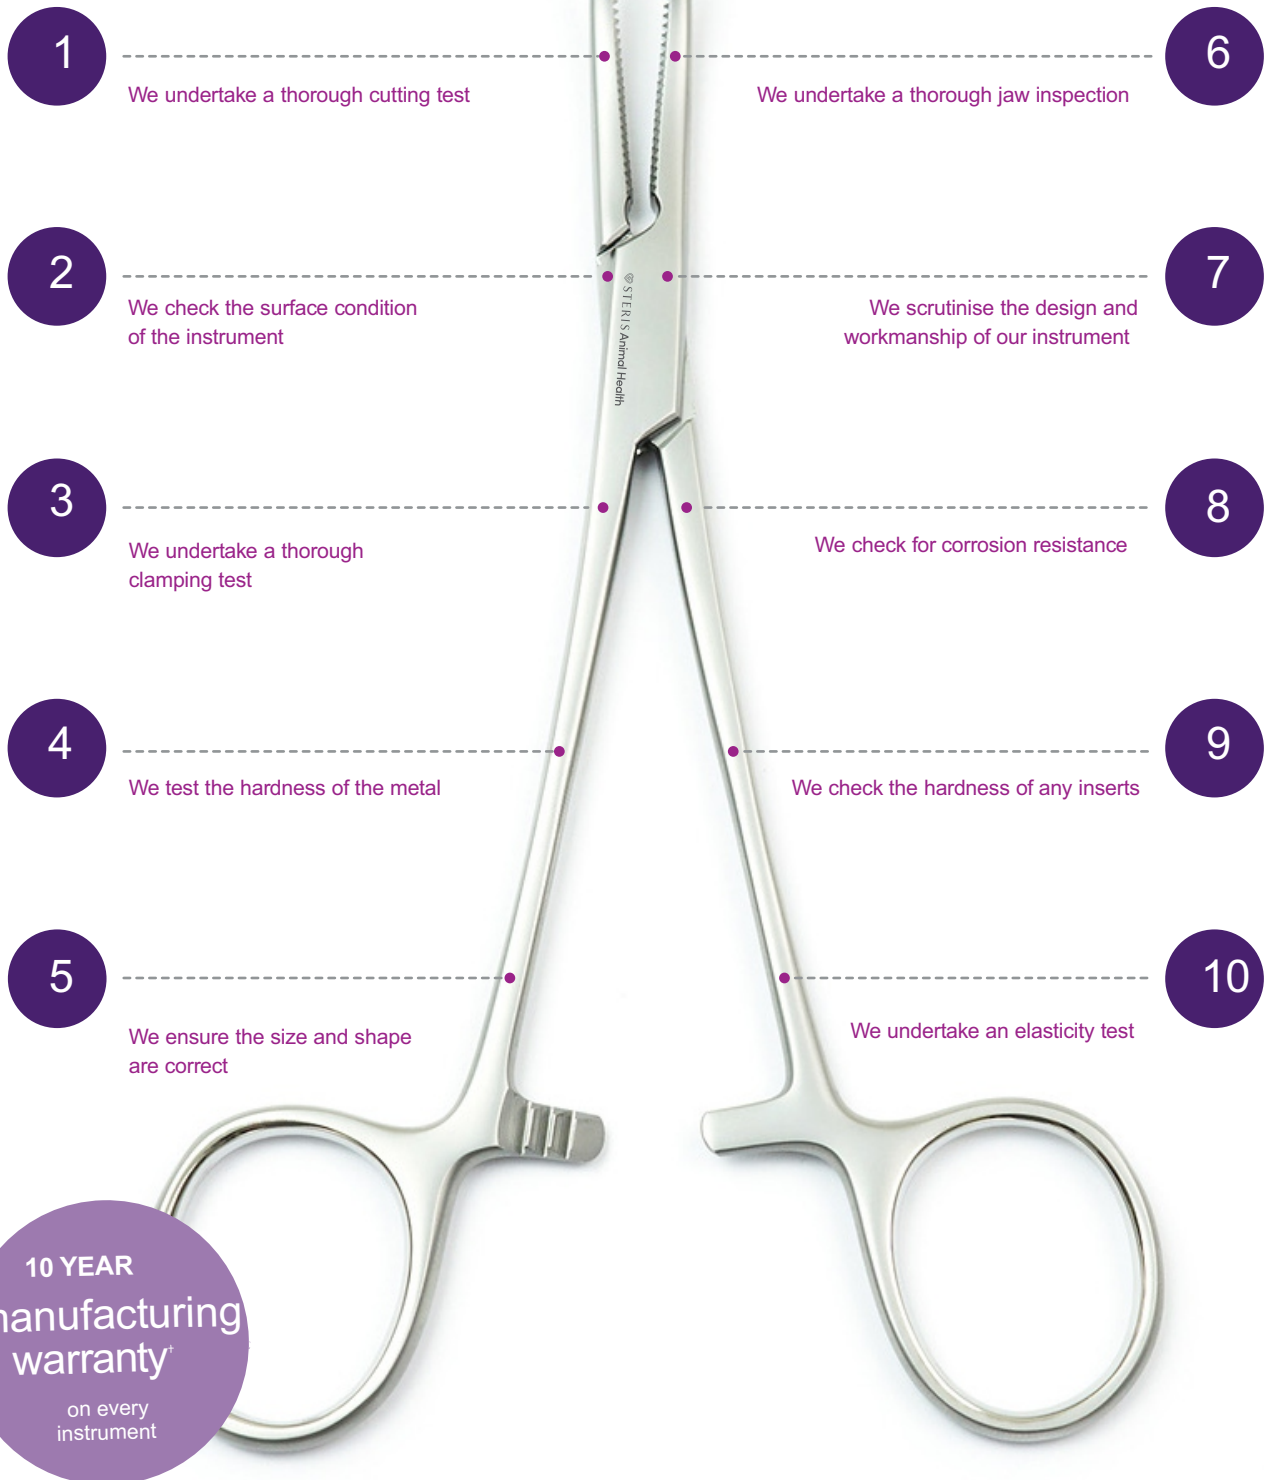

Safe and Secure

We offer you peace of mind with a name you can trust

The Damsa 10-Point Quality Check

We are a brand that advocates quality, that's why, we have created our 10-point quality check. We align these to a number of human health standards.

Placing an Order

our small dedicated team are ready and waiting to take your order or help with any enquiry

Online orders

By far the quickest and simplest way to place an order is via our website www.snazanintl.com with fast and free delivery on items in stock and easy and secure online card payments.

Cant wait?

If you really can't wait for that delivery or you need delivery over the weekend or perhaps you wish to send your order to an alternative address we can still assist. Just get in touch with a friendly member of our team (additional shipping charges may apply).

Ways to pay

Our online store is secure and simple to use. You can make payment by credit or debit card. We also accept bank and wire transfers and cheques via our invoicing system; please contact us directly for further details should you wish to make alternative payment arrangements.
